WILD ADVANCE

IN WHEAT

Expectation of Large Demands From Europe—French Are Said to Be Buying but English Markets Are Still Lagging

Kansas City, Aug. 26.—The remarkable advance in wheat, stimulated by belief in future scarcity as a result of the European war, continued this morning. Opening prices were up one to three cents and the market maintained a strong tone during the morning and then made another rapid advance, carrying December wheat up to \$1.08½ in Kansas City, 7½ cents over yesterday's close. The Chicago December price rose 8 cents to \$1.15.

An over night advance of 3½ cents in Liverpool was the stimulating influence. English cables reported increased demand and unfavorable Russian crop news.

New York messages said that the French government was buying and paying cash through the French consul.

If there was any English buying it was not mentioned in the news. The Liverpool wheat quotation, equal to \$1.20½ a bushel was only 6½ cents above the top price reached today for September delivery in Chicago. A margin of over 20 cents between the two markets is necessary for profitable shipments.

Corn and oats advanced about 2 cents.

The best kitchen cabinet on the market is the "Springfield Model" and the price is right too, sold in Monett by Bob Callaway only. Come see them, and be shown their good, practical points.

Mrs. Don Williams is not so well today.

Come and see the new power washer at BUCHNER & THIELEN.

"The Joplin Business College now is occupying one of the finest new fire proof homes in the entire southwest. Young people wanting a first class business education, should write now concerning entrance in September or October."

44-tt. Ladies, have you seen those coats in Wainright's window? Choice next Saturday only \$18.25.

NAMUR FORTS ARE STILL HOLDING OUT

London, Aug. 27 (1:02 a. m.).—The following official announcement has been issued at Antwerp, according to the Reuter correspondent there:

"The Belgian operations have succeeded in the double object of diminishing the German entrenchments and drawing the German troops on the line between Malines and Brussels, thus reducing pressure on the French positions. We have compelled the Fourth German division, which was advancing southward, to retrace its steps. The Fourth Belgian division at Namur has fulfilled its task, arresting the German column and allowing the Belgians to retire on the French line.
